

EMPATHER

Embedding Privacy, Transparency,
and Trust in Educational Research

Project Summary

The challenge

Educational research with children and young people is increasingly shaped by digital technologies. This creates new opportunities, but also raises important ethical, privacy and inclusion challenges. EMPATHER responds to the need for practical, easy-to-use guidance to help educators and researchers carry out research that is open, responsible and trustworthy.

Project objectives

Practical guidance

Develop an ORRI Toolkit with clear guidance and practical resources for responsible educational research.

Privacy by design

Integrate privacy-by-design principles across all stages of the research process.

Build capacity

Strengthen the knowledge and skills of educators and researchers to apply ORRI in practice.

Engage stakeholders

Involve children and young people, parents, educators and experts in a participatory approach.

Project partners

EDVOCACY Coordinator

Non-profit organisation working on educational research, innovation and inclusion.

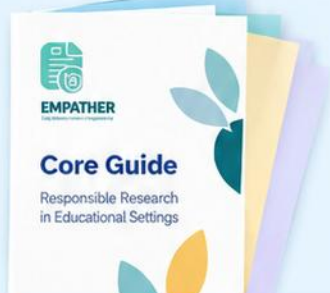

Directorate of Primary Education of Cyclades Project partner

Supporting schools and educators across the Cyclades.

The EMPATHER ORRI Toolkit

A practical guide and five complementary resources to support responsible educational research.

EMPATHER Responsible Research Workflow
